## HarbourView Bottom Rolling Multifold Inward and Flush Sills

Due to popular demand, we've expanded our sill options for the HV Bottom Rolling Multifold. With both inward and outward sills now available, a wide variety of project requirements can be catered for.

Every bottom rolling sill is self draining and can be installed with or without a subsill. Sills available with stop, or as flush to suit requirements.

Darley's HarbourView Multi-Folding Door System is the perfect choice for a variety of applications including shopping centres, offices, showrooms, commercial and residential buildings.

To find out more, contact your Account Manager or your local Darley branch using the contact details below.
