Page 1: Klassicview 76mm windows, 20mm IGU

## DESCRIPTION / APPLICATION

Klassicview 76mm windows, 20mm IGU

### Klassicview 76mm windows, 20mm IGU

#### **WINTER IS COMING**

Keep even warmer this winter with the upgraded Klassicview 76mm range take up to 20mm thick glazing!

Whilst using the same frames, the 76mm suite now has new rails, stiles, interlocks and beads to take larger IGU's (Double Glazing). So for very little extra cost, customers can supply windows with a bigger air gap, providing improved thermal efficiency this winter and next summer. Same hardware and the rubber combos of the Klassicview Sliding door, the new profiles are rolling in across the Sliding window, Awning window, Double Hung and fixed framing on the 1st of May.
