Featuring: KV sliding window can now achieve a 300pa water rating & N4/C2 wind category rating

The KlassicView 76mm Sliding Window has been designed to deliver outstanding strength and performance.

Darley is pleased to announce that the KlassicView 76mm sliding window has recently undergone extensive testing and can now achieve a water rating of 300pa. Furthermore, increased wind load capabilities also improved the system's wind categories to an N4/C2 rating.

With the recently increased pocket size, and our roller range, the KlassicView 76mm sliding window is capable of up to 20mm glass, and up to 80kg panels.

RATING	THEN	NOW
Servicability	1800	2000
Water	250	300
Ultimate	2700	4000
