DARLEY ALUMINIUM

Hinged Doors

Whether it's for a main entrance, internal door, external door or even a wardrobe – the hinged door has always been a popular option for many applications.

Darley has a number of hinged doors available through our KlassicView residential range; CityView commercial range and ClimateGuard – thermally broken range of doors. Our hinged doors are all water rated and are available in multiple bolt locking options.

They have also been tested to and exceed Australian Standard AS2047.

PLEASE REFER TO PAGE 2 - 7

for all the hardware products you will need to fabricate a KlassicView, CityView and ClimateGuard Hinged Door.

THE KLASSICVIEW RANGE of residential windows and doors are an ideal choice for modern architectural requirements, meeting the latest design trends and performance specifications. Perfect for residential dwellings, the KlassicView range can be incorporated into a variety of louvre, awning, double hung, sliding and multi-fold configurations.

THE CITYVIEW RANGE of commercial window and door systems is suitable for commercial and high end residential applications. This system can be incorporated into a variety of louvre, awning, double hung, sliding and multi-fold configurations by using a common framing system, which allows for a wide range of design options.

HARBOURVIEW *is Darley's exterior folding door system and is widely used in high-rise residential and commercial applications. It comes with 25 customisable door configurations and can be configured for both inward and outward opening doors. It is an easy to maintain system, that comes in a variety of surface finishes and has been tested and approved by an independent NATA accredited laboratory.*

THE CLIMATEGUARD RANGE of thermally broken window, door and framing systems are perfect for delivering optimal energy efficiency and comfort to commercial buildings. The thermal break in ClimateGuard consists of a plastic strip between the interior and exterior aluminium profiles, that reduces the flow of thermal energy throughout the aluminium frame.

HARBOURVIEW *Multifold* DOOR SYSTEM

Darley's HarbourView Multi-fold door system is available in bottom rolling and top rolling options.

Perfect for a variety of applications including shopping centres, offices, showrooms and commercial buildings, as well as high-end residential developments and apartments.

With self-cleaning rollers and highly adjustment hardware, the HarbourView Multi-fold door system provides users with a modern stylish design and smooth operation.

Designed and engineered in Australia, the HarbourView Multi-fold door system has been tested to and exceeds Australian Standard AS2047.

PLEASE REFER TO PAGE 12 - 15
