

MEMBER PROFILE

DARLEY ALUMINIUM CELEBRATE 25 YEARS

As a distributor of aluminium extrusions and framing systems, Darley Aluminium has been servicing the needs of window and door fabricators for over 25 years.

In November 2021, Darley Aluminium celebrates its 25th anniversary in distributing aluminium extrusions and components to window and door fabricators, Australia-wide.

Established in 1996 from humble beginnings, Darley began fabricating security doors in a suburban home in Berala, New South Wales. Originally operating with only four employees, Darley graduated to a small office in Punchbowl, then an office and warehouse location in Frank Street, Wetherill Park. Along the way, production expanded to include distribution of commercial window framing and customised aluminium extrusions.

Over the years, Darley's facilities, product offering and services continued to grow. Darley now employ over 230 people nationwide across four branches in Queensland, New South Wales, Victoria and Western Australia.

The past 25 years have witnessed many accomplishments and milestones, from the development of their residential and

commercial window and door systems, to the refurbishment and upgrade of their branches, and an expanded product range.

These developments have come with great rewards, with Darley becoming a leading distributor of aluminium extrusions in Australia and being recognised as a trusted, professional, and highly regarded brand in the aluminium industry.

Darley could not have achieved its longevity and continued growth without

the hard work, dedication, and support of its employees. Darley also attribute their success to their loyal customers, who they thank for their continued support.

Darley Aluminium has remained a family owned and operated business with its customers and people at the centre of what it does. The team at Darley have enjoyed developing long standing relationships with prominent builders and building materials suppliers.

KlassicView
Residential window and door systems.

CityView
Commercial window and door systems.

ScreenGuard
Stainless steel mesh security door and window systems.

HarbourView
Multi-fold door system.

VALUE-ADDED SERVICES

The distribution of aluminium extrusion is the core of Darley Aluminium's functions, but Darley also offers a number of value-added services including powdercoating, light fabrication and packaging.

BRANCHES AUSTRALIA-WIDE

Darley truly is a national distributor with four branches located around the country: Erskine Park, New South Wales; Keysborough, Victoria; Yatala, Queensland; and Hope Valley, Western Australia.

The Head Office based in New South Wales is the main distribution hub for their range of aluminium extrusions and also home to primary business functions including Technical Support, IT, R&D, Finance, Customer Service and Software.

Darley's largest branch, spanning over 15,000 sqm, is the Victorian office and warehouse. The Keysborough site is more than just a warehouse for storing aluminium extrusions. This branch

offers additional services including powdercoating, manufacture and distribution of kits, brake press and guillotine services, and a ClimateGuard processing facility.

THE FUTURE

Darley are excited to celebrate their 25th anniversary and look forward to another 25 years of success.

"We started as a small family business providing aluminium extrusions to window and door fabricators. Over the last 25 years, the business has grown from more than just an aluminium distributor into a full-service solutions provider, offering customers everything from locally designed and tested thermally broken windows and doors, customised extrusions and fully glazed windows and doors via our partnership with Alucity Architectural Product Supply," says Ray Kwan, National Sales Manager, Darley Aluminium.

"We are committed to building a sustainable future by investing in developing our window and door

systems, digital infrastructure and investing in our branch facilities and people."

The executive team and staff are committed to the ongoing growth of Darley Aluminium and aim to stay at the top of their game with continued investment in the latest technologies, IT infrastructure development and expansion of their online presence. Darley remains committed to delivering high-quality products and customer service.
