- Dynamic Impact test
- Pull test
- Jimmy test
- Knife Shear test
- Probe test

Care and Maintenance

Your HDVA Security system will require regular cleaning and maintenance. We recommend using a soft bristled brush or non-abrasive cloth with warm water and a neutral detergent to clean your HDVA, then rinse with warm water. Abrasive cleaners and harsh detergents are not recommended as these can scratch or damage the surface area. Cleaning should be done at least once every three months or every month in industrial or coastal areas.

Warranty

A 12 month film integrity warranty applies from the date of installation (subject to care & maintenance). Darley's Heavy DVA Mesh is an Aluminium system stringently tested to comply with Australian Standards AS5039 and AS5041.
