

# DARLEY MAGNETIC FLY DOOR LATCH

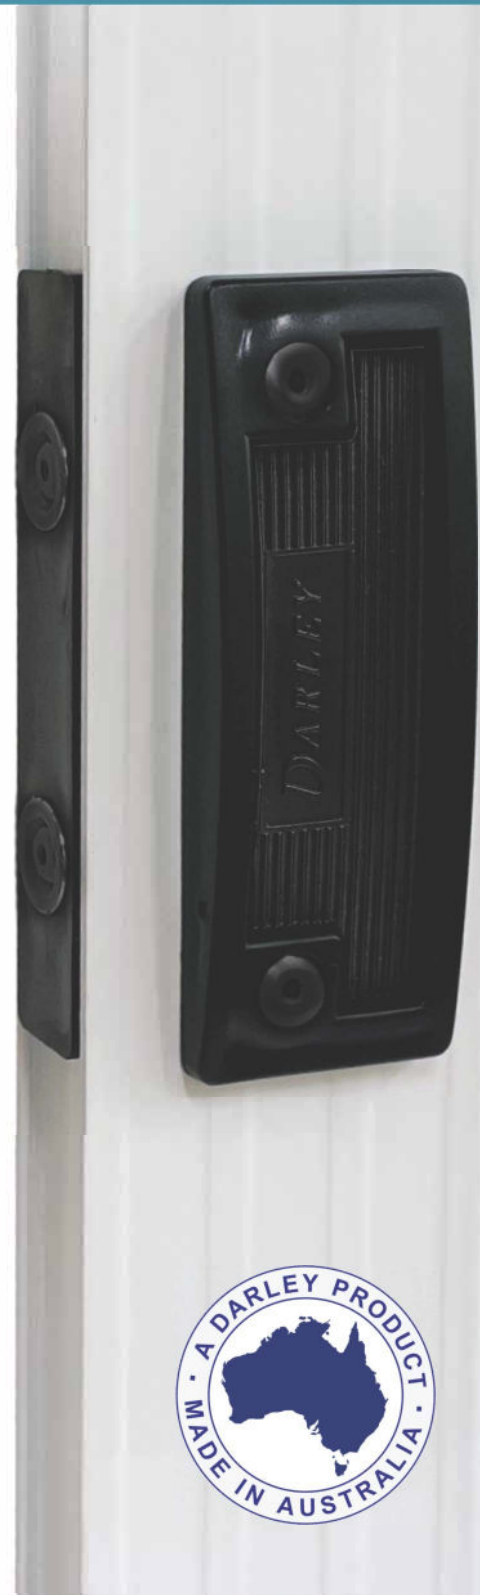

The Darley Magnetic Fly Door Latch features magnetic latching, so no need for levers to open and close the door.

Made from high quality UV stabilised plastic, it is suitable for left and right handed sliding door screens.

Utilise existing security door tooling, the magnetic component fits into the same standard security door roller cut-out.

## Key Features

- No punching required
- Can place handle anywhere on the frame
- Easy and simple setup - install onsite or in warehouse
- Screws and rivets provided
- Black epoxy coated magnets for protection against corrosion
- Oiled and black zinc nickel coated strikers, gives protection against the weather
