

WHO IS DARLEY ALUMINIUM

From humble beginnings fabricating security doors in a suburban home, to providing a complete range of aluminium window and door systems – Darley Aluminium has come along way in the last 25 years.

Offering customers more than just aluminum extrusions to produce a window or door, Darley provides the complete solution including; technical manuals to assemble the system, software that creates the quotes & estimates, an ICS team that provides quality customer service and technical support to help fabricate and install the system.

Established in 1996, Darley Aluminium is a distributor of aluminium extrusion products and associated components used in residential, commercial and industrial applications. With four branches nationwide, Darley has been designing and distributing window and door systems that offer superior performance and style.

An Australian, family-owned business, Darley's systems are designed and engineered in Australia and manufactured locally and by our extrusion partners overseas. With a long-standing highly regarded reputation in the aluminium industry, Darley has been servicing the needs of fabricators Australia wide for 25 years.

No matter how large or small the project, Darley can take care of all your aluminium window & doors needs and provide the complete solution. Darley's innovative window and door systems are designed to suit Australian climatic conditions and exceed Australian testing standards.

Celebrating 25 years of service, Darley offers the following core functions:

- Custom-made Extrusions
- Window & Door Systems
- Knock-down Kits
- Alucity Fully-glazed Windows & Doors

WHY CHOOSE DARLEY ALUMINIUM

FLEXIBLE

Darley can provide flexibility when it comes to product packaging, payment terms and delivery. Speak to one of our Account Managers to find out more.

RELIABLE

With a dedicated customer service team, 4 national distribution centres and technical support, you can count on Darley Aluminium to get the right product to you on time.

COMPLETE SOLUTION

Whether its supplying aluminium extrusions for a window & door system or a simple geometric section, Darley Aluminium can provide the complete solution from placing the initial order to delivery and technical support.

As a privately owned business, at Darley we take a personal interest in our customers' needs and that's why you will be guaranteed prompt goods & services.

Our ICS teams are trained to provide exceptional customer service, ready to take your orders and assist with product enquiries.

6 reasons why

You will have access to a wide product range, including stocked items and custom-made extrusions.

We offer great flexibility with regards to design and supply, thanks to our long-standing relationship with our aluminium extrusion partners.

Establishing and maintaining long term relationships with our customers is a high priority for Darley, which is why we have been in business for 25 years.

Darley has four convenient branches and distribution centres located throughout Australia, ready to service the building and construction industry.

Darley Aluminium are long standing members of various industry associations including the Australian Glass & Window Association (AGWA), HIA and Master Builders Association and as such we conform to an Industry Code of Conduct designed to protect consumers.

THE COMPLETE SOLUTION

CUSTOM-MADE EXTRUSIONS

Darley's Mill sales division works closely with you to design and manufacture customised aluminium extrusions. The process normally starts with Darley's Australian based CAD draftsman, working with you to design the product and then sending it over to our extrusion partner overseas to be manufactured. All customised products are tested according to Australian standards before they are distributed to any location in Australia, or held in any one of Darley's 4 warehouse locations.

WINDOW & DOOR SYSTEMS

Our core business is the distribution of aluminum extrusion products & associated components used to manufacture window and doors systems, largely for residential and commercial applications. Darley has four branches and distribution centres located in NSW, VIC, QLD and WA, with head office based in NSW. Products can be transferred between the four branches and tracked with our online IPTV fleet tracking system.

KNOCK-DOWN & REBUILD KITS

One of Darley's fastest growing divisions is the distribution of the Klassicview residential kits and Harbourview multi-fold door kits. This option allows you to easily place an order online at <https://darleyaluminium.com.au/order-online/> and have it delivered to your door. One of the few kit manufacturing facilities in Australia, this option is perfect for situations where you may not have the resources to fabricate a window or door system for a particular project, or within a short time frame.

ALUCITY FULLY-GLAZED WINDOWS & DOORS

Alucity Architectural Product Supply is a licensed fabricator of Darley Aluminium's window and doors systems used for residential and commercial applications. Based in Australia, Alucity works with our aluminium extrusion partners overseas to manufacture finished windows and doors. Whether you are a large-scale fabricator supplying window & doors systems for multi-level apartment buildings or a small-scale operator, Alucity can take care of your project from start to finish.

NATIONWIDE DISTRIBUTION

Darley's aluminium extrusion products are sourced from local, as well as overseas suppliers. Our overseas extrusion partners are located in Guangdong, China – they manufacture our aluminium extrusions in accordance with Australian standard AS1866.

All extrusions are extruded using prime ingot meaning no scrap or recycled material is used. The extrusion factory has 39 aluminium presses ranging from 600 to 5,000 tonnes that are able to produce small to large sized sections in a variety of shapes. They also have 2 anodising plants, 3 vertical paint lines and 6 horizontal paint lines, with customers able to place orders as low as 250kg per order.

ADVANTAGES WITH DARLEY ALUMINIUM

QUALITY CUSTOMER SERVICE

The Internal Customer Service (ICS) departments within our four Darley branches, provide high quality customer service and support to our fabrication customers. Our dedicated ICS teams have the experience and technical knowledge to assist with a variety of product enquiries.

R&D & TECHNICAL SUPPORT

Darley has an in-house R&D team responsible for developing our range of high quality window and door systems. All systems have been tested and approved by an independent NATA accredited laboratory to ensure they meet and exceed the latest Australian standards. R&D also provides technical support to fabricators, comprehensive technical manuals and specialised product training.

FABRICATION TOOLING SYSTEMS

Tooling is a crucial component when it comes to fabricating windows and doors, which is why Darley can provide tooling systems and flexible tooling arrangements for fabricating our residential and commercial window and door systems.

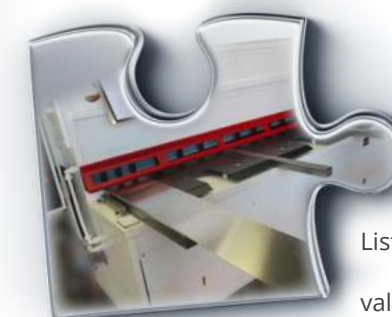

SOFTWARE

Fabricators need specialised software to produce quotes, estimates and cutting sheets. When it comes to software Darley offers both the V6 and Logikal software platforms, providing nationwide technical support, as well as regular updates and training sessions.

SURFACE FINISHES

This includes a variety of finishes that can be applied to all aluminium extrusion products including anodising, powdercoating and woodgrain finishes. Darley has two in-house powdercoating lines in NSW and VIC and are an accredited applicator of both the Dulux and Interpon paint finishes.

Listed above are just some of the value added services Darley provides — we can also track orders, offer flexible payment terms and even cut and fold sheets of aluminium (*maximum length of 3.6m*) with our brake press and guillotine machines.

OUR SYSTEMS

Over the last 25 years Darley have developed a reputation for designing some of the most innovative window and door systems. Some of our residential and commercial systems include:

KLASSICVIEW

The KlassicView range of residential windows and doors are an ideal choice for modern architectural requirements, meeting the latest design trends and performance specifications. Perfect for residential dwellings, the KlassicView range can be incorporated into a variety of louvre, awning, double hung, sliding and multi-fold configurations.

EASY PICKET

Darley's Easy Picket system is an attractive concealed fixing solution for all your screening and fencing needs. Easy to install, this versatile system comprises of a suite of aluminium extrusions and plastics that provide a complete screening solution, which can be used in both commercial and residential applications.

HARBOURVIEW & CITYVIEW

The HarbourView & CityView range of window and door systems are suitable for high end residential and commercial developments and apartments. This system can be incorporated into a variety of louvre, awning, double hung, sliding and multi-fold configurations by using a common framing system, which allows for a wide range of design options.

EASY SHUTTER

The Easy Shutter system is a concealed aluminium shutter system, that is ideal for internal and external applications. Easy to install, this powdercoated aluminium product is designed to hide unsightly screws & rivets and can withstand harsh environments.

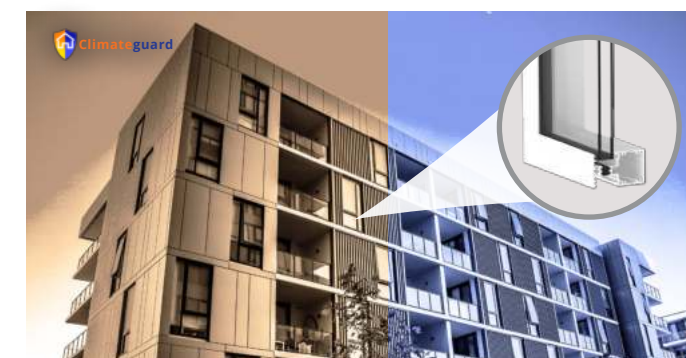

SCREENGUARD

The ScreenGuard stainless steel security mesh system was designed to provide protection but also to protect your view. ScreenGuard's patented security system technology has been tested and exceeded Australian standards AS 5039 – 2008. It uses high tensile extruded aluminium that provides both strength and quality.

CLIMATEGUARD

Darley's ClimateGuard range of thermally broken framing, window and door systems — are perfect for delivering optimal energy efficiency and comfort to commercial buildings. ClimateGuard uses thermal polyamide plastic strips to create a powerful insulation barrier that keeps the transfer of heat or cold through interior and exterior aluminium profiles to a minimum.

COMPLETED PROJECTS

MARINAS SQUARE APARTMENTS

Location: Wentworth Point NSW
Fabricator: Alucity Architectural Product Supply
Systems Used:

- CityView Apartment Door
- CityView Awning Windows
- 150mm x 50mm Front Double Glazed
- Commercial Framing

ASCOT VALE RESIDENTIAL HOME

Location: Ascot Vale VIC
Fabricator: Nuline Windows + Doors
Systems Used:

- 45mm Commercial Door
- CityView Sliding Stacking Patio Door
- CityView Sliding Apartment Door
- CityView Fixed Frame Windows

TAIGA APARTMENTS

Location: Wentworth Point NSW
Fabricator: Alucity Architectural Product Supply
Systems Used:

- CityView Apartment Door
- 100mm x 50mm Centre Single Glazed Commercial Framing
